

Maldon District Livewell Partnership Grants

As we continue our social and economic recovery from COVID-19 we want to support the health and wellbeing of our residents and communities as much as possible.

Therefore, the Maldon District Livewell Partnership is providing grants of up to £1000.00 to provide local services and projects that are engaging and accessible and meet the needs of the people of the District. The projects should be based around our Livewell health priorities in the district which are:

- Obesity and Physical Activity
- Social Isolation and Older People's Health
- Mental Health

The Livewell grant money can be used to start a new project or breathe new life into an existing one with the hope that the funding will allow the project to be sustainable in the future. We are also keen to fund projects that will support community recovery activity.

You can be considered for support from the Maldon District Livewell Grant if you are a:

- Voluntary or community organisation
- Registered charity
- Constituted group or club
- Not-for-profit company or Community Interest Company (CIC)

The Maldon District Livewell Grants is open to applications until Monday 19th July and, if your project is approved, we will be looking for you to start these projects for mid-September

Please be aware we will be requesting some feedback from yourselves on how successful your project was at the end of its duration. Rest assured, nothing too onerous, just some details on what worked well, what didn't work so well, and scope for the future.

To make an application to the Maldon District Livewell Grants, please follow the link to the application form [CLICK HERE](#)

or send a video/audio recording or powerpoint outlining the project and addressing the application questions to john.macpherson@maldon.gov.uk
